New building of pharmacy Department

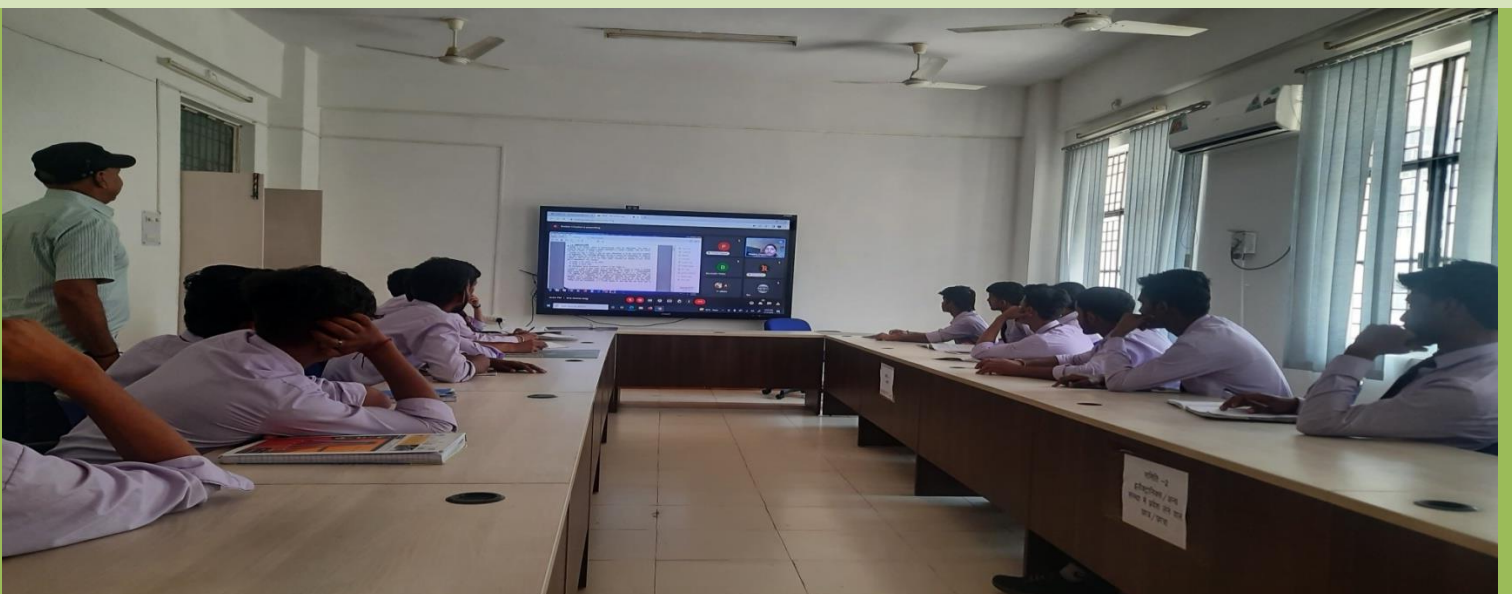

New 4 floor Building for Mechanical Engineering and Civil & Environmental Engineering

Seminar was organized on Personality Development and Work ethics by retired IFS Mr. Dharendra Singh. Students had the privilege of learning work ethics from a dynamic and experienced civil servant.

Online classes running in institution. Students are benefited by the online classes in case the expert teacher not available in the institution or teacher is appointed for the 10 days training exchange program.

As per the instruction of Director sir during the inspection .Establishment of Language Lab ,placing of practical charts, list of practicals and lab rules on the wall of lab work is being done .

As per the instruction given by the respected Director Sir during the inspection. The beautification of every lecture hall, workshop, cabin, Labs and buildings done by placing display board, label on equipments, charts ,list of practicals, big size sign board with metal letters and inspirational quotes on the walls of institute corridors , entrance of the building and plantation around the buildings etc.

Students participated in Placement Drives. Students were registered for every placement drive and counselled them for participating in placement drive that are held near by institution and organizations, so that maximum students get placed.

As per directions given by the Director sir during the inspection various constructive reforms have been done and some are in process eg. activation of E-granthalaya in library, beautification of various labs /workshops , office and newly constructed Pharmacy /Engineering blocks.

In academics students instructed to be regular in the institution .Class test are being taken on regular basis to better prepare the students for final exam. Mid term exam are proposed to be held in this month.
